Language

- English
- Tamil

Skills

- HTML
- CSS
- JavaScript
- React Js
- Node Js
- Express Js
- Mongo DB

Hobby

- Read and watch Tech Updates

Experience

CORVID CONSULTING UK

Internship (Sep-2020 To Dec-2020)

Worked on a project to create some reusable UI components with React Js and used several instances to speed up the code execution. Many UI components in the projects, such as the login page, dashboard page, cards, header, and footer, were created from scratch utilizing **Tailwindcss, JavaScript, and React Js**.

Project

- E-Commerce Website [Demo](#)

It's always wonderful to start a project from scratch. In which i used **HTML , CSS , Javascript , React.js , Node.js ,Express.js MongoDB , mongoDBCompass and Tailwind CSS** to construct various components such as the header with dark mode, footer, product card, product page, product details page, and cart page.

- User Login-Register [Code](#)

In this project , the user's data get from the form and store those data to MongoDB then will redirects to the login page after successful validation from the database it will redirects to the dashboard.Here i'm using **React.js** for frontend ,**Node.js** and **Express.js** as backend and **MongoDB** as database.

Achievements

Internal Smart India Hackathon

Have presented a project entitled "Virtual Tourist Guide".Grab some worthwhile experience.

Uniq technologies

Have finished an in-plant training and gained some expertise of IOT and Android app development.

Education

KSR institute for engineering and technology

B-Tech Information technology

2017 - 2021

CGPA - 7.79

Vigneswara vidhalaya Matric Higher secondary school,Tirupur

HSC

2017
